Figure 1 is a schematic diagram of the water supply system for the Miyazaki Prefecture. It illustrates the flow of water from the Miyazaki River into the Miyazaki Bay and then into the Ariake Sea. The diagram is divided into several sections: the upper section (上流部) shows the Miyazaki River flowing into the Miyazaki Bay; the middle section (中流部) shows the Miyazaki Bay flowing into the Ariake Sea; and the lower section (下流部) shows the Ariake Sea flowing into the Pacific Ocean. The diagram also shows the Miyazaki Bay flowing into the Ariake Sea, which is connected to the Pacific Ocean. The Miyazaki Bay is divided into several sections: the upper section (上流部) is the Miyazaki Bay, the middle section (中流部) is the Miyazaki Bay, and the lower section (下流部) is the Miyazaki Bay. The Miyazaki Bay flows into the Ariake Sea, which is connected to the Pacific Ocean. The Miyazaki Bay is divided into several sections: the upper section (上流部) is the Miyazaki Bay, the middle section (中流部) is the Miyazaki Bay, and the lower section (下流部) is the Miyazaki Bay. The Miyazaki Bay flows into the Ariake Sea, which is connected to the Pacific Ocean.
